BATHROOM & KITCHEN SURFACES

Made in the USA.

*Milano shower and wainscoting with
Milano shower floor*

How would you like the peace of mind of having a shower that is not only beautiful but is also worry-free? Tyvarian showers and surrounds are grout free and easy to clean allowing you to use your bathroom as a place of retreat and relaxation.

Tyvarian is an innovative bathroom product that gives you the luxurious look of natural stone and tile without the maintenance that comes from cleaning grout lines. Tyvarian is mold and mildew resistant and 100% waterproof.

Tyvarian can be used for shower and bath walls, floors, backsplashes, art, and many other applications. Homeowners, designers and builders recognize and value the unique design possibilities and quality offered by Tyvarian. You will be amazed by the colors and styles that are now available to provide your bathroom with the luxurious look you desire.

SHOWER PANS

If you've ever remodeled a shower, you may know the costly mess that can lurk beneath that leaky, smelly old shower floor. Whether you're building a new home or remodeling an existing bathroom, you want to make sure you have a completely leak free shower floor to prevent an unsanitary environment and costly water damage.

Traditional tile shower designs are susceptible to leaks and are heavily dependent on the skill level of the installer. We manufacture a variety of leak-free shower pans to resolve this problem.

Pan options:

- White slate finish*
- Tyvarian slate finish*
- Pre-sloped and leak-proof to prevent water damage*
- No membrane liner required*
- Custom sizes up to 62"x84" with center drain*
- Low profile curb: 3" or 4.5" x 3"*

Oversized shower?

We've got you covered! While Tyvarian's maximum panel size is 60" x 84", we have several different options for you to get the shower of your dreams, no matter the size.

Large shower options:

- **12" Vertical Accent:** Adding a vertical accent strip will allow you to have a shower as wide as 132".
- **12" Horizontal Accent:** Adding a horizontal accent strip will allow you to have a shower as wide as 84".
- **Seaming:** Seaming 2 panels together will allow you to have a shower as wide as 120".
- **Jamb Strip:** Using a jamb, you can cover the seam when butting 2 panels together. This will give you a shower as wide as 120".
- **4" Trim:** Using a piece of trim, you can butt 2 panels against the trim to get 120". You can do this with 4", pencil and mini pencil trim.
